

Sindh STEAM Muqabلو 2026

On January 29, 2026, **Dr. Amtul Qayoom** served as a distinguished judge at the Sindh STEAM Mubaqalo, evaluating visionary student projects centered on the theme “**Reimagine Your Ride.**” The competition served as a powerful showcase of youth ingenuity. Despite their young age and often limited access to high-end resources, the participating students demonstrated a sophisticated grasp of modern engineering and design thinking.

Key Observations

- **Technical Excellence:** The models presented by both girls and boys were remarkably well-executed, proving that creativity can thrive under constraints.
- **Clarity of Vision:** Students didn't just build models; they articulated clear solutions to complex, real-world mobility challenges.
- **Problem-Solving Mindset:** The projects reflected a deep understanding of sustainability, safety, and efficiency, reimagining the future of transportation through a practical lens.
