

4th Research Showcase by Sindh HEC

22nd and 23rd January 2025

The Sindh Higher Education Commission, in collaboration with NED University of Engineering and Technology, organized the 4th Research Showcase on January 22–23, 2025. Dr. Saeeda Nadir Ali and her research team from the Department of Chemistry presented three innovative projects focusing on agro-waste utilization, development of edible coatings, and charge-transfer complexes for solar cell applications. One of the projects, conducted under an NRPU-funded initiative by HEC Pakistan, were led by PhD scholar Sameera Zaki and MS student Fahad Kashif, with valuable contributions from undergraduate students of Batch 2021—Anamta Yaseen, Mahwish Touheed, Malaika Maqsood, Alina Kashif, M. Maaz Iqbal, Syeda Wania Sabahat Sohail, and Saad Anjum.

Dr. Saeeda expressed gratitude to her research collaborators Prof. Dr. Philippe Daniel, Prof. Dr. Jean-François Pilard, Prof. Dr. Ali Dad Chandio, Dr. Iftikhar Ahmed Channa, and Dr. Amtul Qayoom-for their academic support and appreciated Adnan Javed Pirzada and Dr. Shahid Afghan for facilitating connections with sugar industries across Pakistan.
